UnLitigate website: 3 wireframe concepts

Each concept has a Home page and the other four pages, with draft content. Grey boxes are images or illustrations, teal buttons are links, orange tags are notes for the developer (including rough word counts). Colours and fonts are placeholders until the brand identity is ready.

The one message

Punchline: Unlitigate your disputes.

Problem: Court costs years of peace and money, so 9 in 10 people give up on their dispute.

Solution: UnLitigate teaches, supports and connects people to mediation.

Value: You stay in control. Settle through a conversation, on your terms.

Story order on every page: a hook (your police-station moment), then 30-second clarity (problem, solution, value), then proof of character (what you did, who supervises), then one clear next step.

Sitemap (5 pages)

1 Home | 2 Mediation Explained | 3 What UnLitigate Does | 4 About Us | 5 Get in Touch

Get in Touch is a short page whose only job is to send people to the Google Form (opens in a new tab). The privacy note lives inside the form.

Footer on every page: Instagram and LinkedIn links, contact email, and this line: "UnLitigate shares general information about mediation. It is not legal advice. We use simple analytics to understand how visitors find this site."

Nav on every page: logo, four links, a "Get in Touch" button, and a small EN / हिं slot for later.

The three concepts at a glance

A · The Bench

Story first. Opens with the police-station moment and the two-people-on-a-bench motif. Strongest on emotion and character.

Watch out: longest scroll; needs a good illustration.

B · The Map

Agency first. A map of India with anonymous dots: "somewhere, someone is about to drop their case." Visitors pick where they are in their dispute.

Watch out: must stay abstract. Never imply tracking real people.

C · Two Doors

Clarity first. Court versus mediation side by side, then problem, solution, value in three blocks. Best for a 30-second skim on a phone.

Watch out: every number needs a source; keep the tone calm, not adversarial.

My suggestion: mix them. Use A's hero and founder note, C's court-versus-mediation strip on Home, and B's map on the What UnLitigate Does page.

Ways to make it better

1. **Sticky "Get in Touch" button on mobile** so there is always one clear action.
2. **"Is mediation right for my dispute?"** a 3-question self-check on Mediation Explained that ends at the form.
3. **"Disputes we take / don't take"** and **who supervises** on What UnLitigate Does. Dennis flagged confidentiality, consent and competence, and centres will look for this.
4. **Pilot in Pune and Delhi** stated plainly ("Starting in Pune and Delhi"), per Dennis. Your brief says four metros, so please decide.
5. **A "why now" line:** the Mediation Act 2023 and the Mediation Council of India (formed Aug 2026). Verify the wording before publishing.
6. **Real stories later:** one anonymised "settled in X weeks" story after the pilot. Placeholder slot only for now.
7. **Loading animation:** keep it under 2 seconds, light CSS, skippable, first visit only, and off for people who prefer reduced motion. Your brief asks for no heavy animation, so this keeps it fast on mobile.
8. **Share preview image** for Instagram links: the bench motif with "Unlitigate your disputes."

Decisions and checks for you

The "9 out of 10" figure needs a source on the site (a footnote link is enough).

Any claim about working alongside the Mediation Council of India should be confirmed first.

Who is the named supervisor (registered mediator or a law college legal aid clinic)?

The analytics line in the footer must match what is actually installed.

The map idea: dots should be illustrative, never real locations of real people.

What your friend needs

Logo file, hex colours and fonts when ready.

Photos and short bios for Anushka, Madhur, Prakhar.

Google Form link, contact email, Instagram and LinkedIn links.

Copy for each section (word counts are in the orange tags).

Frame 1: two people at opposite ends of a long bench, one thread between them

Frame 2: they slide closer, the thread shortens

Frame 3: face to face. Word "Unlitigate." fades in, then the site

Dev note: simple CSS animation, no video, a "Skip" link, shown once per visitor, and switched off for reduced-motion settings. Keeps it quick on a phone.

1 · HERO · hook (pathos) · about 25 words

A POLICE STATION. ONE QUESTION.

"Ma'am, you'll have to come to court every day. Are you sure?"

I was ready to file. Instead, I went looking for a way to settle it without giving up. That is why UnLitigate exists.

PHOTO: Anushka (warm, not formal)

Why I started this

After that day, I read the numbers. So I trained, started UnLitigate, and began building a network of student mediators who work under supervision. I am Anushka Jena, and my job is to help those 9 people take their agency back.

Show what you did, not titles. Add one concrete action you took (research, training, the April quick win Dennis mentioned) once confirmed.
